

How to read the book - Toward A Christian Public Theology of Grace-Based Justice: A Theological Exposition and Multiple Interdisciplinary Application of the 6th Sola of the unfinished Reformation.

My extensive world-first works may not suit the taste of many and they make, I believe, some rightful and not unreasonable DEMANDS on the readers that they may not want to accept, with any number of plausible reasons attending such a justification.

But then they will miss out on the God-given unique Holy Spirit genius of these much NEEDED gifts of heavenly cum earthly wisdom works.

These Systematic volumes on Public and Political Theology serve my present purpose although they may not meet the expectations of some academics and others. I am unable to accede to the demand to explain the meaning of all long and difficult words; though I have done this for most of the key words where possible and practical.

My next theological and literary production may well assume a different format and a different linguistic style to suit a different doctrinal and didactic purpose and perhaps a wider more diverse audience.

I am preparing for these already but I have decided to first lay a proper well tested and thoroughly testing theological/interdisciplinary and literary foundational work. These works are Christocentric and Pneumatological, Evangelical and Reformed - always Reforming and Interdisciplinary. They are a conspicuous CHRIST ONLY Conspectus of GOSPEL, KINGDOM and NEW COVENANT applied theology, providing a Systematic integral and functional foundation, New Covenant Hermeneutical CONTROL, and Christlike Praxis for further work following upon these present volumes.

These present works are designed to be Idealistic and Realistic, Ethical and Eschatological, COMPREHENSIVE and highly nuanced. These works are meant to be a rigorous and well researched PUBLIC and POLITICAL Theology and THEOPRAXIS of Grace-Based ONLY Justification AND congruent Gospel of the Kingdom or New Covenant ONLY Justice.

These, my magnum opus Systematic and Interdisciplinary works, I believe, are one of a KIND - and designed to be so.

I don't want to make them more accessible or less offensive at any cost.

It is the quality of the reader rather than the quantity I am seeking out.
Neither do I desire to make them more 'sanitary' or more sapid, or more popular.

Nor do I want to render them more appealing to the common mind and common man, and to common grace only.
Nor do I want to offer them as making no hard or easy come and easy go, 'ownership' demands on readers, student and professors of law!
Nor do I fancy making these works neat and nice, milk and not meat, as so much sop, or cheap and easy for the 'clerisy'.
Nor do I want to tender them to the cruel mercies of the self-important lawists and high-minded, moralistic and self-righteous legalists.

Nor do I want to see them prostituted by New Covenant apostate Galatianists who would have us COP their secularised and desacralized CHRIST PLUS LAW - or Christ PLUS further Punishments.
These are they who would have us dance to the fear-based Shadow of the envious and power-mongering Mandatory Reporting Police State.
These are they who would have us swallow the Blue Pill of the Messianic and False 'Welfare' Panacea.

These are they who would have the worst of us sinners locked up to as to live and move and have our being and becoming, by being forever beholden to their iron lungs, even behind their iron bars.
These are those 'Good Samaritan' moralistic do-gooders who treat us as so many no-gooder nugatory nuff nuffs.
These are those who want to beat us down with their 'Family Friendly', no-good will and no good faith nulla-nullas!
These are they who thereby make a nudity of us and so a nullity of the Grace-Based Justice of Jesus Christ!
And all this is so when the iron has NOT entered THEIR souls.
All this when there is no love in their hearts, no grace in their lips, and they have no skin in the game.

That is the 'Game of Thrones' or Authority; the Clash of Kings or Sovereignty; the Storm of Swords or Power!!!

Nor do I desire to merge or mate, or mix and match these inspirited works with another 'homo sapient' flesh only 'wisdom' species of unduly circumscribed linguistic logic, argumentation, or literary genre. 'Sakal' wisdom demands another route.

I introduce the readers to a LOGOS Christos long-chain, lateral and vertical, hyper-linked Spirit begotten and flesh embodied, heavenly revelational reasoning, intersecting in an integral and functionally biblical faithful NEW COVENANT harmonious way, with many Christocentric and Spirit empowered, prudential real-world present earthly Judicial and other applications. These works are rooted

and grounded in the Triune God; in the epistemology and ontology, in the ethic and eschatology of the present Kingdom of God on earth, in its Grace only modality.

The inexperienced, ignorant and lazy, may resent the challenge that this brings them and the responsible work that it requires of them.

If they are not prepared to put themselves on the line, do some hard work, read a lot, and put some skin in the game, then another much more unpleasant reality may well bite them - through a default lionising of the Luciferian, through subscription to a Christ PLUS law mentality and/or a Christless and Graceless substituted ENFORCED and oppressive totalitarian Morality and Legality.

After all, we are NOT talking about a cheap kind of intellectually arrogant, superior and elitist distancing, an effete morally indifferent, a volitionally autonomous, and a shallow emotionally UN-detached 'Politically Correct' Justice that does NOT require much less MEET the Releasing of the Depth Charges of the Gospel as a Politics of GIFT. Christless and Graceless Justices do NOT demand, much less supply, the resources to die to self in Christ, or to spend our lives for others in the name and selfless service of the Sovereign LORD Jesus Christ.

Rather Christ requires and enables a renunciation of all worldly-wise ways of thinking, reasoning, believing, critiquing, reflecting and behaving; even commanding a mandated supernatural Divine-Human renewal of mind, affections, conscience, volition etc.

These works of mine represent a very distinctive and conspicuous Gospel and Kingdom and New Covenant way of relating, thinking, evaluating, governing, judging, communicating, behaving and loving others - one that deeply feeds its NEED of Grace and Grace-Based Pardoning Justice: one that is prepared to open itself up to God and Grace; THEN to open the floodgates of God's Pity and Compassion to self and others; even to insist on God's NOW Magisterial Mercy for all-comers in view of the once-for-all **completed At-one-ment** of Jesus Christ.

And all of this without counting the cost, since Christ has set us free from our BONDAGE to SELF and to LAW, by paying for all the sin and all the crime of humanity, thereby making the salvation of all possible - and by FREELY giving us all we need to live and thrive as Christ's children and God's ambassadors in this present world - and He will amply reward all true believers and all true co-labourers with Him in the Kingdom enterprise!!

Most readers I expect will have some difficulty in hearing and dealing with this type of unexpected and unfamiliar; even my unusual and unique, picturesque and parabolic, allegoric and metaphoric, diverse literary and logical genres.

I understand why some feathers may be ruffled; but let not the reader get too flustered and 'chicken flick' his equal responsibility to STUDY and to understand. An entitlement mentality will usually demand that the author dumb down his work to mechanically make it far more accessible and more understandable to any number of readers. But I can't and won't buy into that given the unique nature and purpose of this work. And I cannot and will not succumb to every reader's demands: Especially when they insist on making it easy on themselves!

However if serious readers DEEPLY hunger and desperately THIRST after God and His amazing Grace;

If they acutely FEEL or desire to know their CRUCIAL NEED of Christ's FREELY GIFTED Liberating Pardon;

If they earnestly Desire Christ's ONLY FREE of CHARGE Righteousness cum Justice: then I argue that THEY are the ones that are best qualified and best prepared to PAY the PRICE of diligent STUDY of my UNIQUE works:

That surely warrants such a diligent search - given the distinctive claims and the evidence to back them up.

And all needs to be done in dependence on the illumination of the Holy Spirit - Just as I have needed to depend on Him.

Others I expect will usually be denied access to the treasures of God that are so often found in dark places and hard places of suffering.

God does not reward lackadaisical seekers who don't or won't meet heaven's rightful demands - as so many surface feeders or bottom dwellers - or those who are not prepared to 'launch into the deep' or to dive in at the deep end and discover some precious blessings that only come for the seeking and knocking, or taking heaven by 'violence' if you like.

Readers, if they choose to count the cost and do their part, will do a DILIGENT SEARCH so as to form proper assessments and rightful judgments about the content and argument of these works of Grace-Based Justification and Justice Applications.

However they should read all the volumes first and reserve their FINAL judgment until then.

They will just have to 'cop' my extensive works 'AS IS' - warts and all. They should make the MOST of it given its serious WORLD-FIRST claims to back it up.

I have done my very best to avoid obfuscation and unnecessary repetition, so as NOT to make the way more difficult than necessary; even to excite and involve the reader who is hungering or wants to hunger for CHRISTLIKE Grace-Based Justice ALONE!

Just as we have all found the Bible frequently 'heavy', bewildering, and often not easy-to-understand' like the Book of Revelation
YET are we thereby excused from making a diligent search to uncover its precious God-given Gems?

Readers - hungry and humble undemanding readers if you will - WILL BE willing to dig up much ground to uncover the precious diamonds found in these much researched and richly experienced interdisciplinary volumes - where I use the Scripture and especially the New Covenant of Grace to maintain functional control over my interpretation and use of all disciplines of thought, Governance and culture.

This is executed in the search for a true understanding of, and an ongoing intimate experience of God and Grace and Governance and Christlike Justice - seeking His Face and not just His hand!!

Readers are meant to wrestle with both the WORD of God and these works: - with a redeemed and re-creative imagination renewed in the power and illumination of the Holy Spirit.

Most readers these days want everything delivered up on a plate made easy for them to swallow and to digest.

They don't want to do the hard work of figuring things out and looking up the meaning of some words for themselves.

They kick and buck in an ever so polite and sometimes noisy way - but it is still kicking and bucking.

This form of literature and picturesque long-chain left and right brain concatenated living logic, living and breathing the life and love and liberty and laughter and the long-term view of the Sovereign LORD Jesus Christ HIMSELF as a FREE GIFT OF GOD, is not meant to satisfy the secularly bounded, and the inflexible and unjustly uncompromising overly CONSTRICTED demands of the hyper-sensitive and high-minded allergic academic absolutists.

Neither are these works meant to accommodate those 'cheesy' 'Big Macs' and boneheads - religious and otherwise - possessed of overly dogmatic and prejudicial steel trap minds that MUST meet their imperious denominational or strictured partisan and professionally structured demands, or be rejected out of hand and unworthy of their approval- much less a PhD!!

It is time to scrap the TITULAR and STATUS-BASED division between clergy and laity, between professionals and non-professionals. It is time to END this disempowerment and enforced emasculation as Satan's invention to keep lions seated on Church pews and students chained to seats. We do NOT need to be relieved of the burden of thinking for ourselves under the auspices of the Holy Spirit of God.

We all need to be freed from the ball-and-chain of licensed and licensing 'accredited' top-down institutionalisation, BOTH religious and secular! We do NOT need to be managed and manipulated any more by the carnal conniption and connivance of Philosopher Kings and Power seeking Politicians, and Christless and Graceless Judges. Our lives and SERVICE should define our position and NOT vice versa!

The extraordinary nature of my 5 World First claims represent a Radically CHRISTOCENTRIC, Messianic and UNIQUELY Mediatorial and Holy Spirit pneumatologically mediated **Megashift** in a Renewed Reformation of Persons in Relations; of Organisms and Structures, of Spiritual Discipline and Discipling; of Empowered Equipping and Spirit borne Equalization in thinking, relating, governing and Judging. These works are designed to elevate the concerted PRAXIS of the Priesthood and Kingship of all true believers - representing the END of spiritual and academic, sacred and secular APARTHEID - including the absolute separation of Church and State, or God, Grace and Governance from the Public Square - **that wrongheadedly and sinfully bifurcates all created and even Redeemed Reality!!!**

These claims may seem pretentious and even appear as evidencing a lack of humility. But don't be deceived by appearances. My boast is in Christ in me, (not in myself) the hope of glory. I seek to avoid both the temptation of pride and the lure of a false humility. But all I can say to that is that God has given me SO MUCH: so many, many years of ongoing superabounding revelations about Himself and His New Covenant of Grace, and Grace-Based Justice that I have felt compelled to share them in this unique and somewhat mysterious, but not esoteric way. And I have been humanly urged and divinely CALLED to commit myself to writing them in a form that is authentic and exciting to me and so, I hope, to others.

These extensive literary and theological works ring TRUE to me and are expressive of my own rich experience of God and delight in Him, and His amazing Undeserved and Unfailing Saving and salugenic Grace. They have sprung up out of me like streams and rivers of LIVING water. They have been accompanied with a thousand or more tributaries of Truth joining this Amazonic River of God streaming Spiritual and Earthly Christ-centred cosmic consciousness that has arisen from my innermost Spirit being!!!

And I expect this will draw in both sides of the reader's brain, in dependence on God; in close connectivity with the regenerated human heart and Holy Spirit enlightened conscience: with a MIND SET to know and to DO the Will of God on earth as it is in heaven, from the Heart: From a Heart and Mind and Soul and Spirit totally captured and enthralled by the Person, and Passion and Pleasures of the Triune Family God - including that of a God -glorifying and Christ exalting Grace-Based ONLY Public Justice!
